Technical Rider- Level 2 Rooms

Main Entrance-

The main entrance doors are on the first floor reached via a ramp.

Temporary parking for access only is available off the main road. Access for larger vehicles is available behind removable bollards but is on a slight gradient.

On entering the building the second floor can be reached by double width staircase and the lift immediately on your right. The lift dimensions are;

Doors- 0.8m (W) x 2m (H)

Dimensions of lift cart- 1.02m (W) x 2.2m (H) x 2.09m (D)

Level 2 rooms

The Studio

This room is 9m (W) by 5.9m (D) with three windows, two of which overlook the canal. The three windows have blinds offering reduced light levels but not dark. It is carpeted in a dark colour and is fitted out with;

6 twin 13 amp sockets and 3 Cat 5 points.

The entrance door is 1.4m (W) by 2m (H).

Kitchen

This is accessed from the main corridor or via The Studio (single lockable door).

The room is 4.1m (W) by 3.7m (D) with a single window. The floor is covered in lino and there is a sink and draining board. The room is fitted with;

1 twin 13 amp socket and 1 Cat 5 socket.

Chambers

The old Council Chambers main access is via two double doors and a removable panel which is 2.4m (W). The room is 7.6m (W) by 13.5m (D) and in traditional wood finish including parquetry floor. There are three main windows which are fitted with curtains which provide good darkness. The room's ceiling is approximately 6.5m high with three large light fittings hung below. The floor height to the bottom of these light fittings is 4m. The room is also fitted with 3 twin 13 amp sockets and 2 Cat 5 sockets.

The room has limited theatre style lighting and a PA system. A 10 metre truss hangs along the length of the room on each side. The current system includes

- 4 x Arri L7 LED colour mixing fresnels with barn doors.
- 1 x Prolights Stark400 LED RGBW with pan/tilt and zoom.
- 1 x Prolights Jetspot4 Led Profile with pan/tilt, zoom and gobos.
- 2 x Apollo Right Arms with SL 25/50's c/w auto Iris.
- 3 x LED warm white fresnels for house-lights.
- 1 x ETC Congo lighting desk with 40 x fader wing

- 2 x KV2 Twin 6inch speakers
- 2 x KX 15 inch bass bin.
- 1 x Soundcraft Si (16 channel).
- 1 x Tascam CD-200SB. CD, USB and SD Card playback.

Small stock of microphones, DI's and cabling.

The lights and PA are on tracks and can be moved by the Technical Manger only, to the best configuration of your event by prior arrangement.

The Studio, which can be used as a dressing room/waiting area joins the Chamber via a single door 0.8m (W) by 2.1m (H).

At the rear of the Chamber is a double door 1.25m (W) by 2.1m (H) provides access to the Waiting Room.

Waiting Room

The Waiting Room can be accessed by either the Chambers or the main corridor. It is 7.6m (W) by 6m (D) and is finished in a traditional wood style. There is one main window which has a curtain and provides complete darkness. The ceiling varies in height from 2.3m to 3.5m. The room is fitted with;

2 twin 13 amp sockets and 2 Cat 5 sockets.

Marriage Room

The Marriage Room is the last function room on the corridor. It is 7.4m (W) by 7.5m (D) and is finished in a traditional wood. The windows are all curtained and provide complete darkness. The room is fitted with; 2 twin 13 amp sockets and 2 Cat 5 sockets.

The main corridor also provides access to the main theatre space and male, female and disabled toilets.
